SECTION 4: First aid measures

- General measures:** If exposed or concerned, get medical attention.
- If inhaled:** If breathed in, move person into fresh air. Keep calm and warm. Consult a physician immediately.
- In case of skin (or hair) contact:** Wash with plenty of water and soap.
If skin irritation or rash occurs, get medical advice or treatment.
- In case of eye contact:** Immediately flush eyes with running water. Consult a physician immediately.
- If swallowed:** If conscious, give one to two glasses of water or milk. Never give anything by mouth to an unconscious person.

SECTION 5: Firefighting measures

- Extinguishing media:** Suitable extinguishing agent
- Use water**
- Special hazards arising from the substance or mixture:**
May give off irritating or toxic fumes (or gasses) in fires. During firefighting, wear proper protective equipment to avoid smoke inhalation.
- Advice for firefighters**
 - Unique extinguishing method:**
Extinguish with extinguishing media, cutting off the source of the fire. Promptly move all movable containers to a safe location. Cool non-movable containers by spraying mist around the area.

Special protective equipment and precautions for firefighters:

Perform firefighting activities upwind, avoiding the inhalation of hazardous gasses. Wear self-contained breathing apparatus for firefighting if necessary.

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures:

Do not allow anyone other than those involved to approach.

Provide adequate ventilation until collection is complete.

Environmental precautions: Prevent spilled material from entering sewers, drains and low-lying areas.

Methods and material for containment and cleaning up:

Fire is strictly prohibited. Absorb the leaked liquid with a waste cloth, dust, cloth and collect it in an empty container, and then wash it away with a large amount of water.

Always wear protective glasses when working.

Do not work downwind.

SECTION 7: Handling and storage
